FOUR HOURS TO FULL

Charging Ami couldn't be simpler, just unroll the built-in charging cable, found behind the passenger door, connect up the Type 2 adapter and plug in for a full charge in just four hours*. Charge your Ami at home, at work or using the UK's public charging network thanks to Ami's ability to charge via a Type 2 charger.

LIFESTYLE ESSENTIALS

Discover the latest lifestyle essentials for your Ami, including custom Ami Ultimate Ears Boom Bluetooth® speaker, Ami keyring in three colour choices and hands-free kit on the Citroën Lifestyle store <http://lifestyle.citroen.com>

* Ami is supplied with a type 2 adapter that connects to Ami's European two-pin plug. This ensures Ami can be charged using the UK's charging network and at home or work via a wall box. Charging via a wall box does not decrease charging time, as the Ami itself dictates the charging speed as opposed to the charging solution. Please ensure you have access to an appropriate charging solution. Speak to your local retailer or Ami Expert for more details.

** DAT@AMI device required which is available as an accessory, as part of one of the accessory colour packs, or as standard with Ami Pop and Ami Tonic.
